

Remax Denver: 214 showings booked by AI in one month

Real Estate · 8 agents · Go-live June 2026

The Challenge

The brokerage's 8 agents were each getting 15-25 leads a day from the website and portals. The office rule was 'call back within 5 minutes' — but with showings, closings and listings, most leads waited hours, and 70% of them went cold. The team was losing deals to faster competitors.

The Solution

We deployed the brokerage pipeline: instant lead qualification (0-100), hot-lead alerts to agents in under 5 minutes, automatic property matching from the MLS, and an AI showing scheduler that books viewings on agent calendars. Follow-up sequences kept every warm lead moving.

Results

Leads scored by AI	486 / month
Hot leads alerted < 5 min	98%
Showings booked by AI	214 / month
Agent hours saved	~52 / month
Est. pipeline value	\$1.9M commission

“Our agents sell. The AI runs the chase. We haven't lost a lead to slow follow-up since go-live.”
